Cabin Assignments:

One of the best adventures in summer camping is making new friends. In most cabins there will be 7 campers and a counselor. However, in the larger cabins which sleep a greater number, we will still maintain the ratio of 7 campers to each counselor. Age and school grade are taken into consideration when making cabin assignments. Campers may request to be with a friend or relative. While we try to honor requests, we must also think of the girls who come alone. Kindly write below the name of the camper, if any, with whom you would like to share your cabin. Please remember that we group girls according to age and grade level.
